V1.0 - 241017

FÖRST TR8D

The Först TR8 Wood Chipper is a genuine jaw dropping performance machine for maximum performance in remote locations.

The TR8D takes that performance to another level with its awesome chipping speed and aggression. With its ability to get to remote locations and deliver an outstanding performance once there, the TR8D has a wide hopper and will process hawthorn as well as 8" hardwood.

With twin 10" blades on a large, 'open top' flywheel coupled to a 45 hp Kubota Diesel engine, this tracked woodchipper throws wet, green material better than any other machine in its class. A true performance tool.

8" x 10"
FEED ROLLER APERTURE

Technical Specifications
