MONITOR PCR10

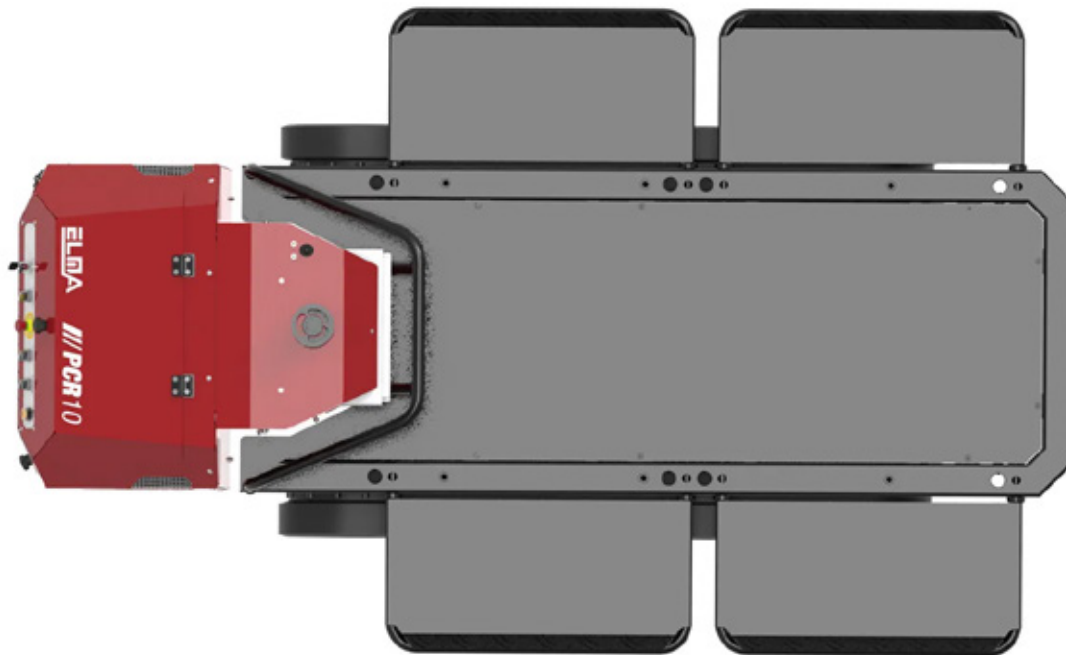

The **Monitor PCR10** is a fully electric mini tracked crane engineered to deliver precise lifting performance in confined and restricted-access environments. Combining compact dimensions with zero-emission operation, it provides a practical solution for projects where conventional cranes are limited by space, noise or environmental requirements.

Whether installing glazing, positioning plant equipment or undertaking maintenance inside occupied buildings, the PCR10 allows operators to position loads with confidence and accuracy. Its tracked undercarriage provides excellent stability across a variety of surfaces while the electric drive enables quiet operation in sensitive environments. Compact in size and professional in capability, the PCR10 helps contractors complete lifting tasks efficiently without compromising performance.

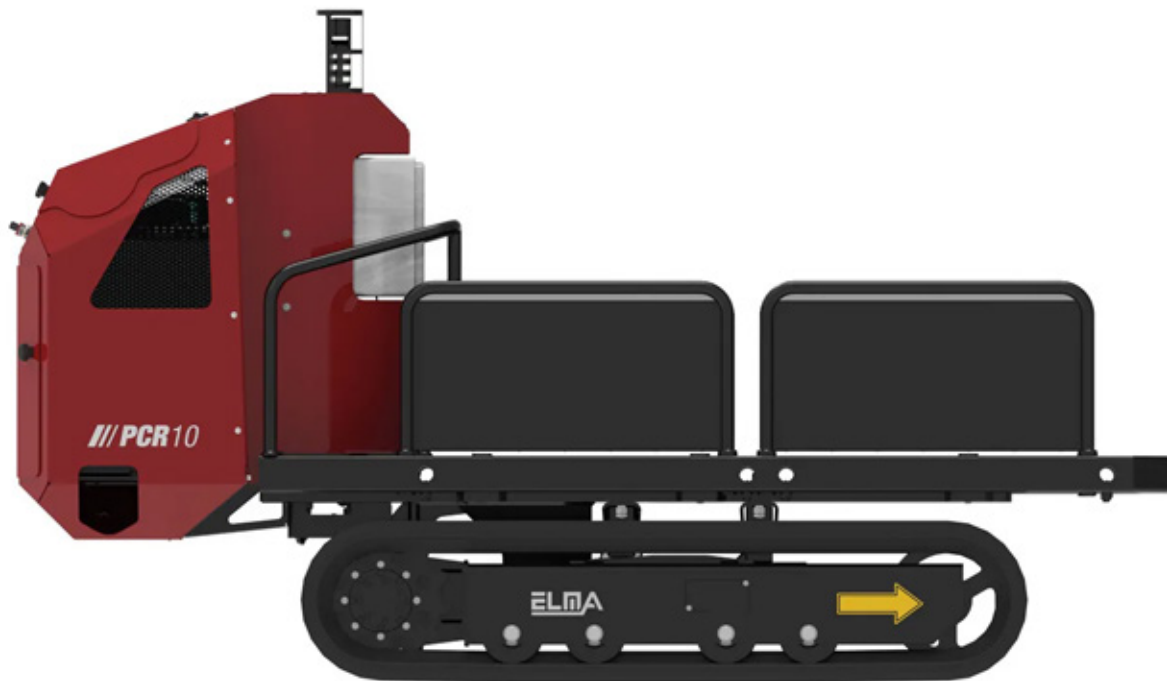

Technical Specifications

	STD	E
Max. load on platform	1100 kg	
Max. translation speed	2.1 km/hr	
Max. slope capability	25°	
WEIGHTS		
Weight	1000 kg	1050 kg
Ground pressure on tracks	0.12 kg/cm ²	0.13 kg/cm ²
ENGINE OPTIONS		
Petrol Engine	8.7 kW/11.7 hp @3600 rpm	-
Electric motor 230Vac (optional)	2.2kW/3HP	-
Electric motor traction	-	3.5kW/5HP 48Vdc
Battery characteristics	-	51.2Vdc 105Ah Lithium Ion

(All specs E&OE and subject to change)
