MONITOR 2750R

The Monitor 2750R Spider Lift is arrow spider lift that's perfect for paths and small gates.

The Monitor 2750R Spider Lift's non-marking tracks are very gentle on sensitive flooring, and the radio-control drive provides ease of maneuvering in tight areas. With a stowed width of only 1.1 m, the Omme is perfect for driving down narrow paths and through small gate openings.

At only 3,725 kg in weight, this 27 metre spider lift can easily be transported and even craned into difficult locations. (Lifting points and procedures are standard with all Monitor Spider Lifts.) With a huge amount of travel in its dual position stabiliser legs, allowing it to be set up on the most difficult areas, including sloping or very uneven terrain.
