CMC S23

monitor
Access

The excellent balance between weight, strength, and working height makes the CMC S23 Spider Lift the most compact platform with the longest outreach in its class.

Equipped with the Self Control System by CMC, it offers automatic control of stabilisation, manoeuvring speed, automatic closure of the aerial part, and collision prevention.

The S23 features a double pantograph platform with articulated arms and a jib, characterised by absolutely unparalleled performance and specifications.

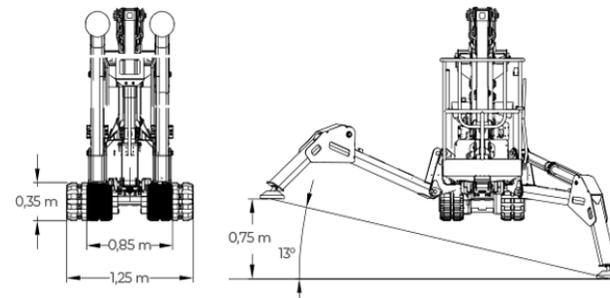

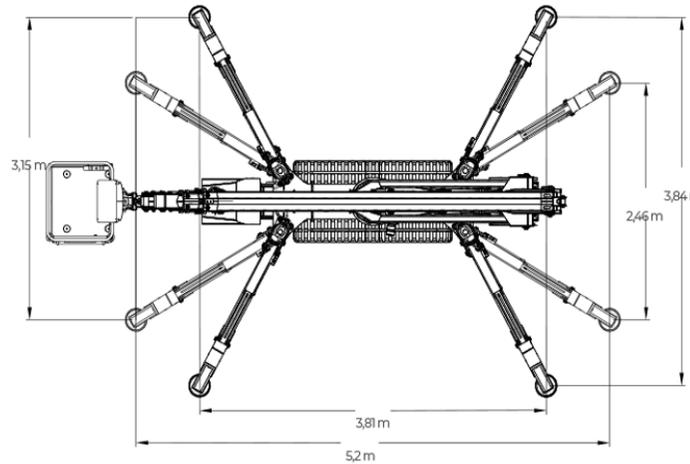

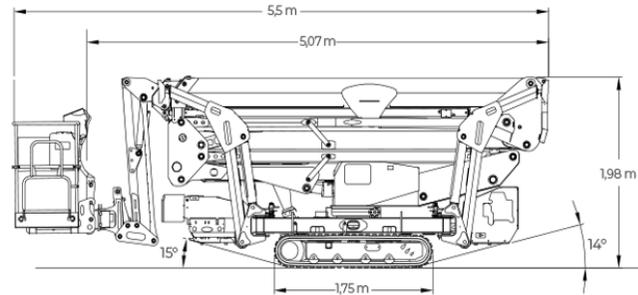

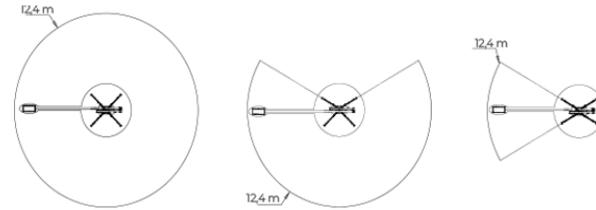

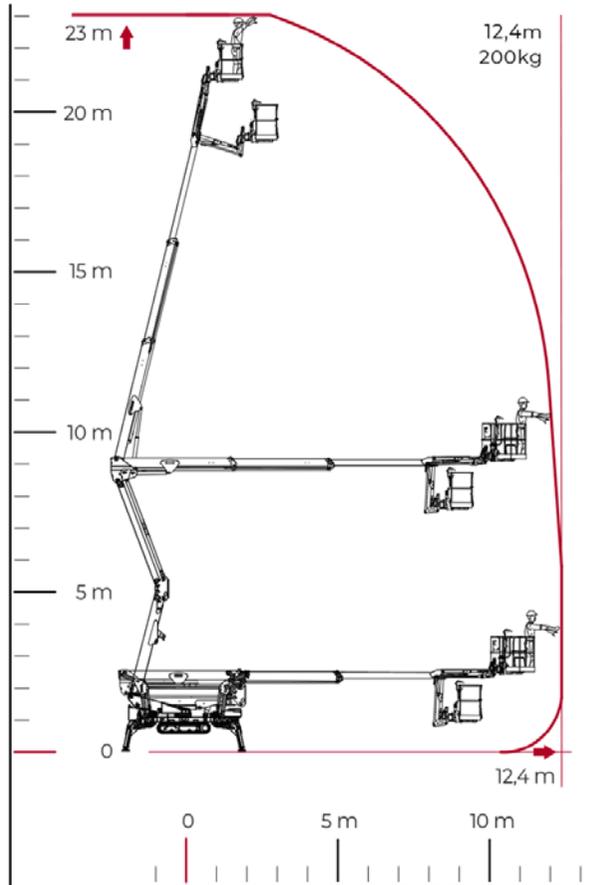

It also includes a geometric advanced platform design that, thanks to the use of high-quality steels, is extremely light, allowing it to be loaded onto a trailer, thus increasing its versatility and range of use.

23M
WORKING HEIGHT

Technical Specifications

Max working height	23 m
Max platform height	21 m
Max horizontal outreach (with 200 kg)	12.4 m
Max rated capacity	200 kg
Weight	3100 kg
Basket dimensions	1.4 x 0.7 x 1.1 m
Basket rotation	±90° (options)
Turret rotation	±355° (710° continuous)
Standard engine	Kubota 14 HP Diesel Engine & 240V Electric Moto
Expanding tracks	Std
Auto-level	Std
Radio control	Std

(All specs E&OE and subject to change)
