# RAYCO RG165T-R

Targeted for customers who need to remove large stumps in a short time, the Rayco RG165T-R Stump Cutter is able to maneuver in tight areas with retractable tracks, allowing the ability to pass through a 36" (92 cm) gate and widen out for stability.

The 165-hp (123-kW) petrol engine meets emissions requirements without the need for diesel exhaust fluid (DEF). A handy backfill blade makes clean up afterward easy. Plenty of horsepower and torque allows maximum use of the cutter wheel to get jobs done quickly.
