V1.0 - 241127

RAYCO RG55

The RG55 features a petrol Kubota engine, 4-wheel drive and a hydraulic backfill blade. Operators appreciate the large cutting dimensions as well as the visibility and protection of the swing-out control station.

For travel through gates, the control station swings in line. Wide floatation tires and 4-wheel drive allow the RG55 to maintain traction in challenging conditions. A hydraulic backfill blade saves time during clean up, letting you get on to the next job. Wireless remote controls are available on the RG55R.

24.5"
CUTTING HEIGHT
