V1.0 - 250328

MONITOR E148T

The Monitor E148T is a simple, strong and reliable telescopic truck mounted cherry picker. A very versatile package for heavy duty applications.

It is equipped with exceptional strength and rigidity in the aerial platform as well as simple and intuitive operation.

Our telescopic truck mounted boom lift has 13.7m vertical reach, and 8.4 m horizontal reach.

The Monitor E148T truck mounted lift is extremely rigorous, and safe to accommodate 2 persons and tools with a maximum rated capacity of 250 kg.

It is also equipped with hydraulic control levers that are robust and durable, allowing smooth full range operation—even at maximum outreach.

The Monitor E148T's outrigger legs can be operated individually using the hydraulic controls for simple leveling on uneven surfaces. The legs are vertical, and remain within the width of the truck when set up.

***Available on Car License, 2WD and 4X4 Fuso and Hino Cab Chassis**

13.7m
WORKING HEIGHT
