WINLET 785 GLASS HANDLING LIFT

WINLET 785

The Winlet 785 Glass Handling Lift is equipped with an impressive reach while the unique double extension on the lift arm makes the machine extremely compact.

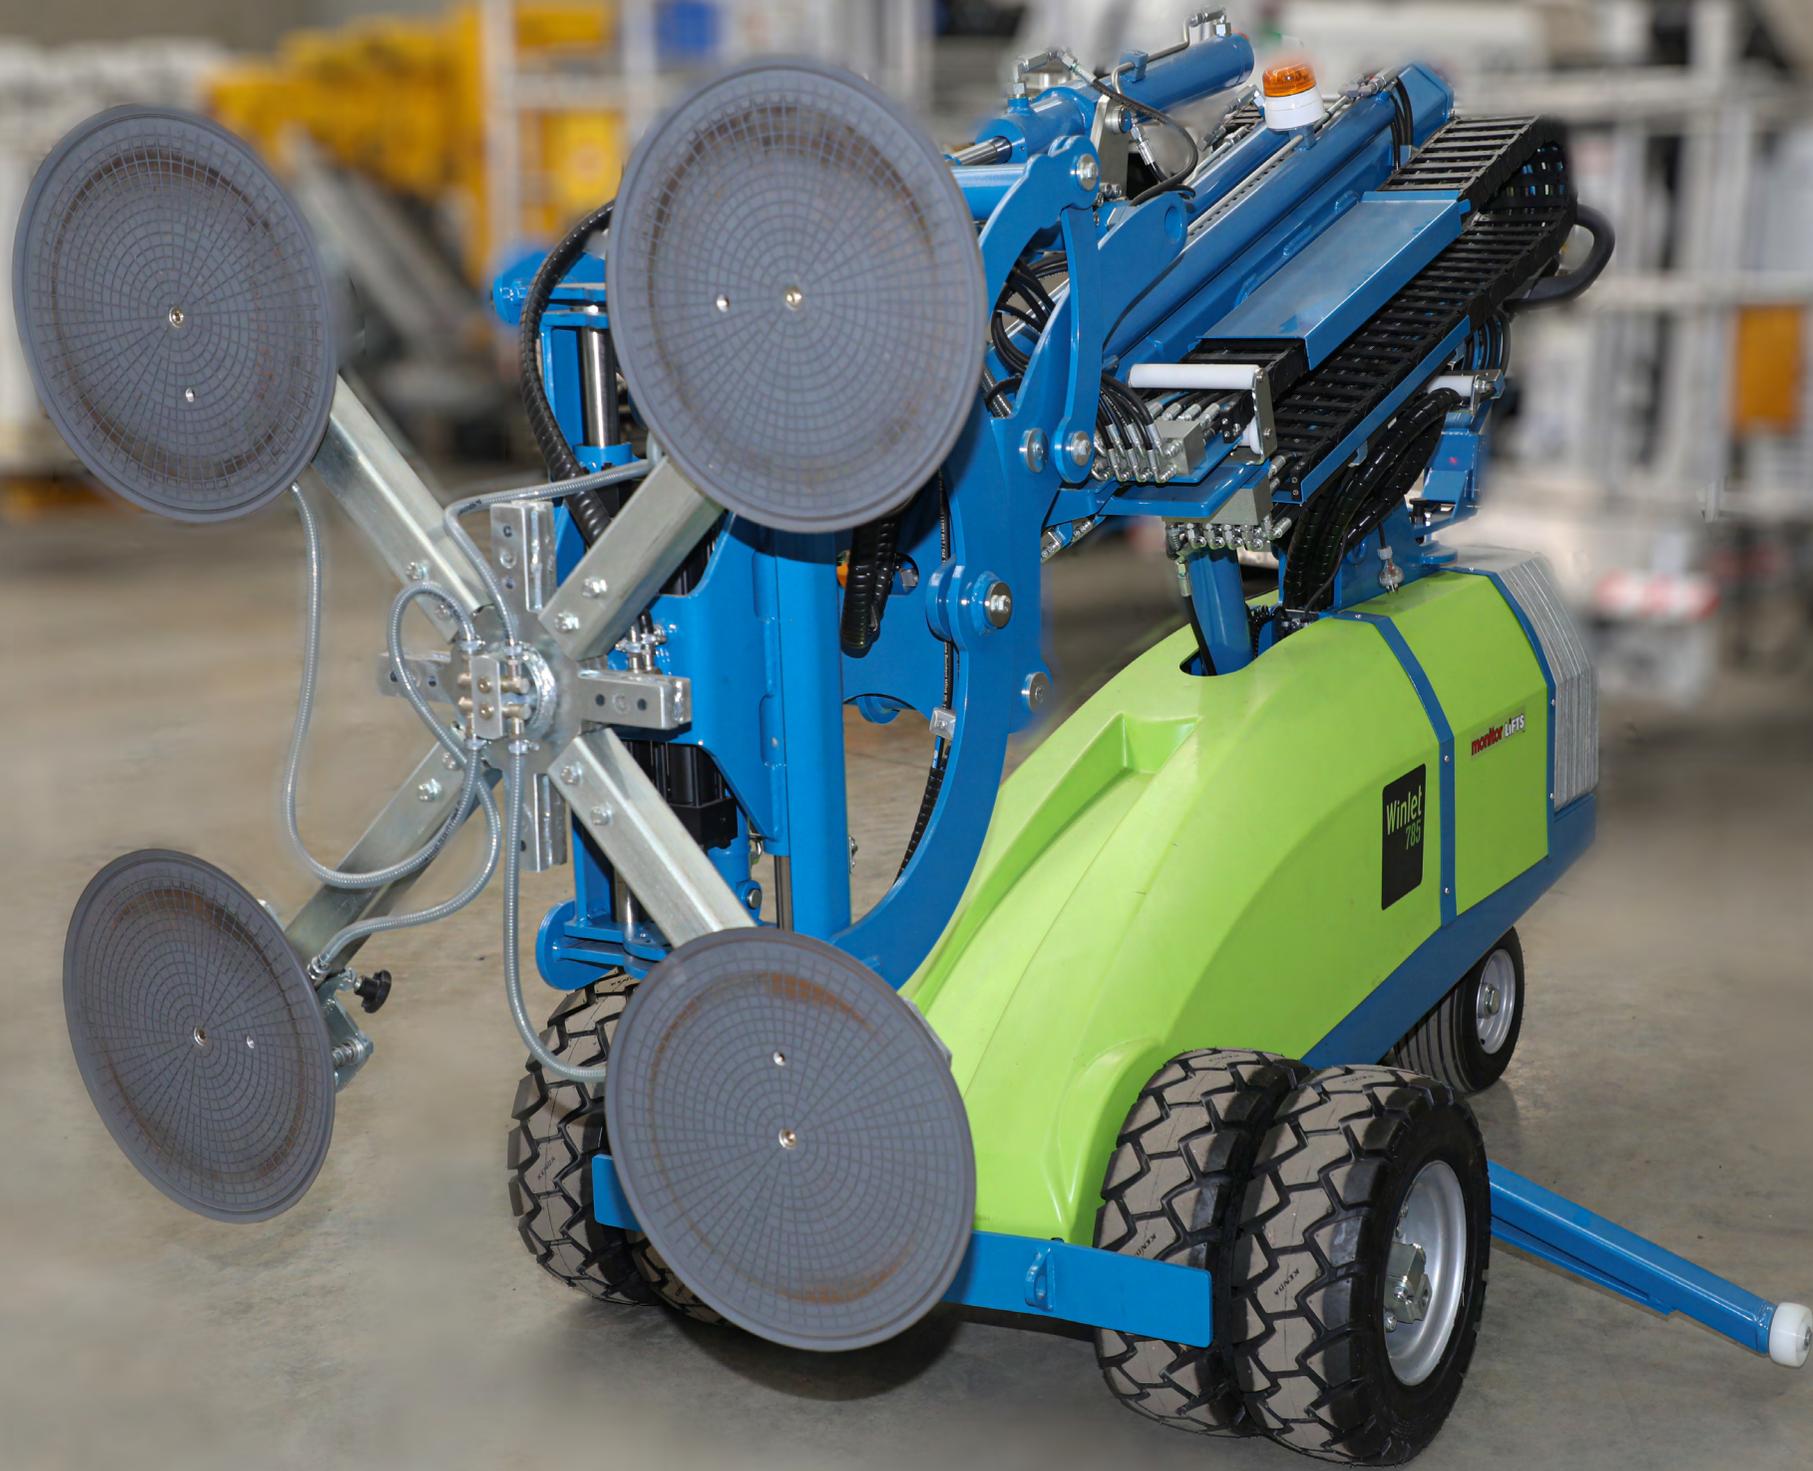

It provides a revolutionary and highly productive new working method of installing windows. Glazing or other non-porous panels weighing up to 785kg can be lifted, transported and installed in a safe and straightforward manner.

Glazing robots dramatically improve health and safety and reduce the frequency of damage to both materials and operators. The 785 boasts increased reach and capacity over the 575, whilst still retaining the same concept of compact chassis dimensions and low tare rate.

This machine represents an amazing combination of performance-to-size ratio that has never been achieved before.

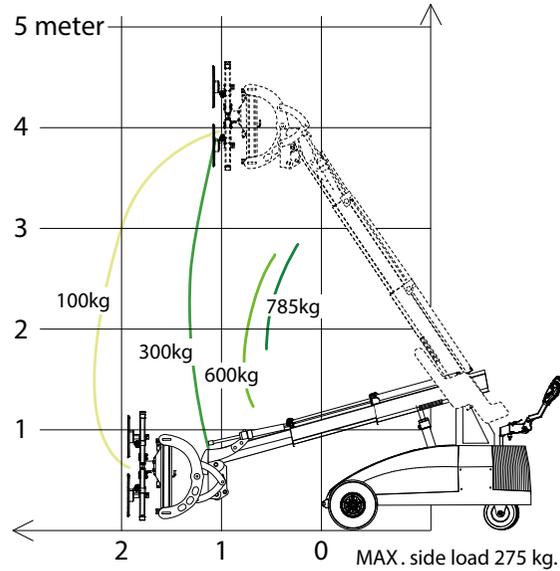

785KG
LIFTING CAPACITY

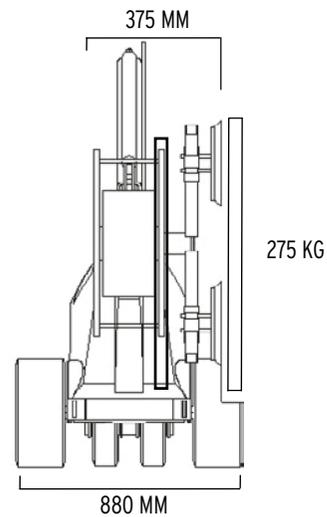

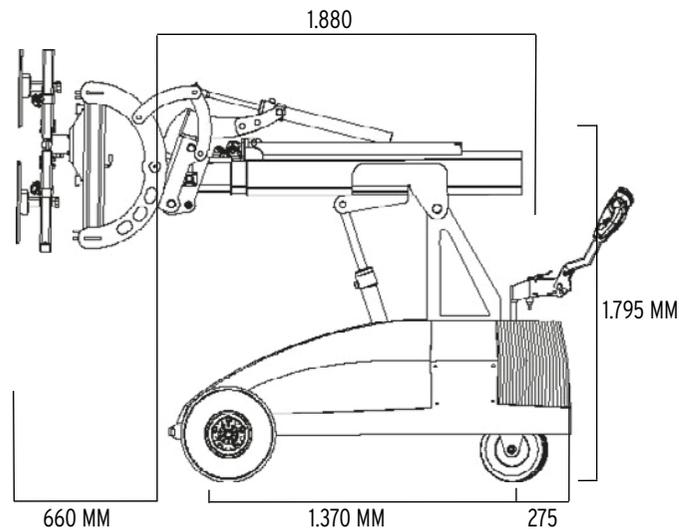

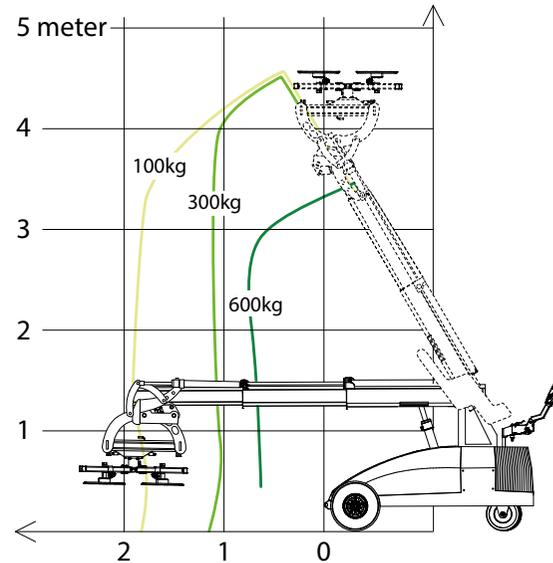

TECHNICAL SPECIFICATIONS

REACH

PICKUP AND PLACE

Max. Lifting Capacity	785 kg
Max. load at max. extension	100 kg
Max. capacity on side	275 kg
Max. Lifting Height	3.9 m
Max. Extension	2500 mm
Min. Extension	700 mm
Weight: including counterweights	1350 kg
: excluding counterweights	1075 kg
Stowed Length (chassis only)	1350 mm
Stowed Length (incl. head & steering arm)	2700 mm
External Width (Dual Wheels)	1205 mm
External Width (Single Wheel)	275 mm
Parallel Hydraulic Shift	75 mm
Fine Lift on Arm	200 mm
Tilt Function	180°
Hydraulic Rotation	180°
Suction Cups	4 × 410 mm
Batteries	2 × 150 aH

(All specs E&OE and subject to change)
