CADET6

LITTLE CHIPPER BIG JOB

Europe's best selling chipper just got smaller.

Enormously capable, this 6" chipper features the same chipping chamber as the game-changing ST6P but is powered by a punchy little 23hp petrol engine.

Designed with landscapers in mind, but also perfect for the budding arb just starting out. Robust, reliable and easy to maintain, the Cadet 6 will fit right into a rental fleet.

The Cadet 6 effortlessly tears through timber and handles wet green waste with ease. Small machine, but it chips like the big boys.

For the landscaper. It's a no brainer.
