V1.0 - 240718

CMC S22HD

The CMC S22HD is an articulated platform with a pantograph and a two-stage telescopic boom plus jib. This combination, together with its outriggers of high levelling capacity, three working areas and long horizontal reach, makes it ideal for all outdoor works, even in extreme conditions.

To the potential of the articulated stabilizers with high leveling capacities, is added an unrivaled aerial part: 21.6 meters of maximum working height and 12.50 meters of outreach plus jib for a maximum load capacity of 230 kg.

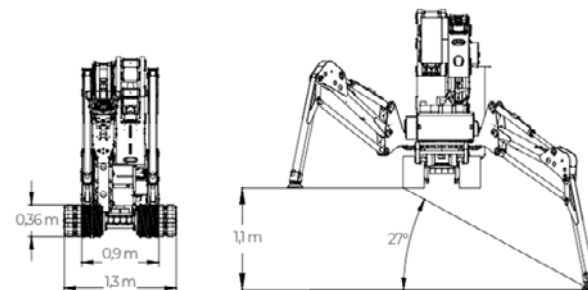

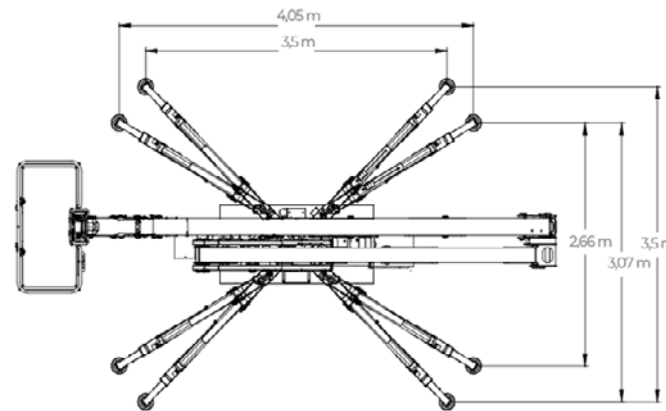

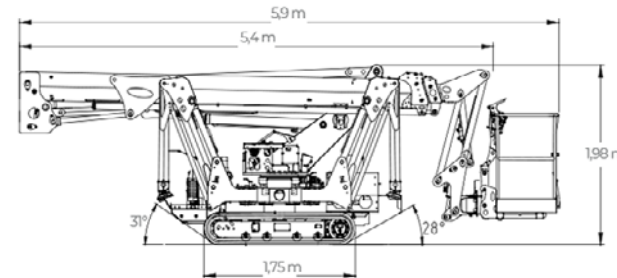

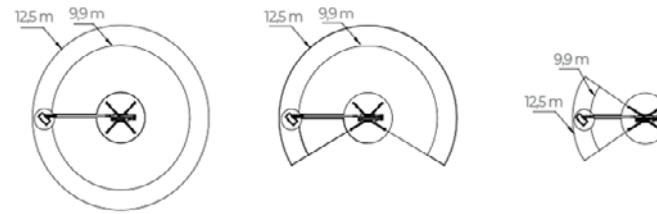

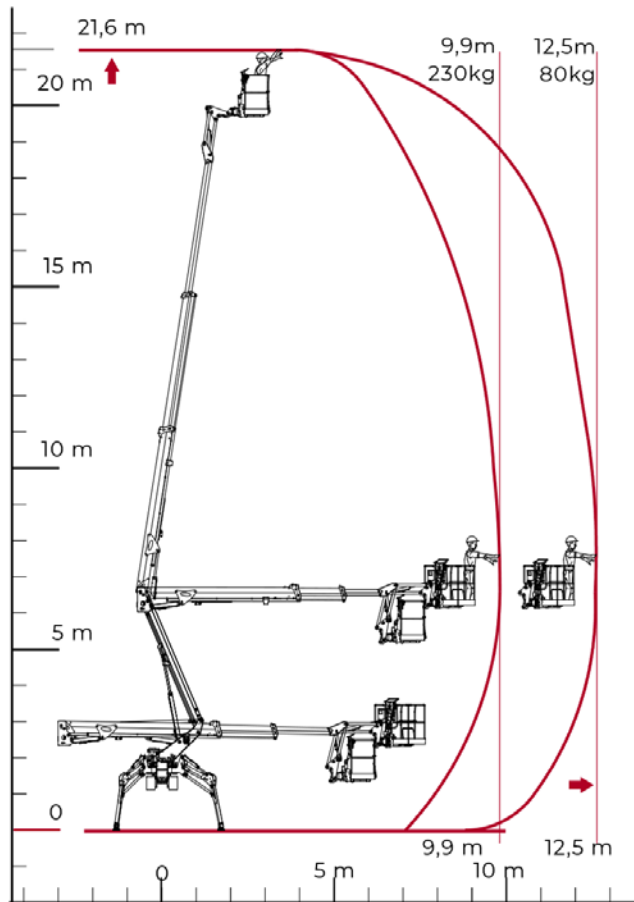

Thanks to the three working areas and the multiple travel speeds, the S22HD is a track platform with truly exceptional performance; suitable for every job.

21.6M
WORKING HEIGHT

Technical Specifications

Max working height	21.6 m
Max platform height	19.6 m
Max horizontal outreach (with 80 kg)	12.5 m
Max rated capacity	230 kg
Weight	3025 kg
Basket dimensions	1.4 x 0.7 x 1.1 m
Basket rotation	±90° (options)
Turret rotation	±355° (710° non-continuous)

(All specs E&OE and subject to change)
